

Dari is the most used language in Afghanistan; all official documents are written in it. This textbook, designed to cover one year of instruction, offers beginning learners a communicative approach to the Dari language that develops the four language skills—speaking, listening, reading, and writing—through culturally relevant activities. The book is accompanied by a CD-ROM with extensive authentic materials, including audio and videos recorded in Afghanistan, to help learners perform tasks and functions in both colloquial and standard forms. Grammar and vocabulary in each thematic lesson are chosen carefully to help learners perform these tasks and functions at an elementary level and beyond. Dari: An Elementary Textbook prepares learners to perform at level 1+ or 2 on the ILR scale and at the novice high/intermediate low level on the ACTFL scale. Special notes are included for people with experience in Persian to help them learn Dari more efficiently. It is the fifth elementary level textbook published in partnership with the Center for Languages of the Central Asian Region (CeLCAR), following Pashto, Tajiki, Uzbek, and Uyghur.
