

12 fact-filled stories about North American plants and animals are illustrated by the progressive folding steps of twelve very easy origami models. Completely illustrated folding instructions are placed side-by-side with story text for easy use by kids, teachers, librarians, camp directors, park rangers, or anyone else who loves nature or wants to learn how to fold easy origami plants and animals. Designed for use with groups or individuals of all ages, from preschool through adult, these stories provide information about North American ecosystems and biology as they teach simple paper folding techniques. Includes illustrations, photographs, presentation guidelines, optional extended activities, index, trade paper.
