

In this book I lay out what you need to know when it comes to SAP and your business. I will speak about SAP, what you need to know when making a SAP decision, what you need to know for successful SAP implementation, the possible risks, best practices after implementation, and much more. After reading the modules in this book you should be confident and prepared to move ahead with your SAP decisions. Over the past 42 years SAP has transformed into one of the largest business software companies on the globe. SAP is the world leader in enterprise software. SAP is the third largest independent software manufacturer in the world behind only Microsoft and Oracle. SAP's tagline reads "The Best Run Business Run SAP." The people at SAP are very good at what they do and that has translated into enormous business success. SAP serves 253,500+ customers in 188 countries. SAP employees 66,500+ people at locations in more than 130 countries. SAP has an annual revenue (IFRS) of \$21.3 billion US. SAP provides software solutions to businesses large and small. Any business looking to streamline their business processes and optimize their efficiency should look at SAP. SAP implementation takes a lot of time and a lot of money. No business should think about implementing SAP or making SAP decisions without being well informed.
