

Peter's remote mountain sanctuary is under siege as refugees from a dying civilization invade his territory threatening his way of life. He befriends a Native American girl who helps him unlock strange powers that have lain dormant on the sacred mountain for centuries. Peter must use all his experience and newfound spiritual awareness to protect himself, and the girl, from impending danger. He finds himself in a centuries old tribal conflict with the "Sons of Disobedience". Someone has turned the clock back two thousand years and now it's a fight for survival. Supernatural forces draw Peter into a vortex of danger - he must fight not only for himself and the girl but also for the future of mankind. "The Mountain" is a tense action thriller with intriguing mystical and environmental overtones that takes the reader on a journey through Native American folklore and questions the fabric of modern society.
