

Dr. Clara Ackerman Branon, 58, begins having secret visits from holographic representations of beings from the Many Worlds Collective, a consortium of planet and star systems in the multiverse. When Earth is invited to join the consortium, the secret visits are made public. Now Earthers must adjust their beliefs and ideas about life, religion, culture, identity and everything they think and are. Clara is selected to be the liaison between Earth and the Many Worlds Collective and she chooses Esperanza Enlaces to be the Media Contact. They team up to provide information to stave off riots and uncertainty. The Many Worlds Collective holos train Clara and the Psi-Warriors for the Psi Wars with the rebelling Psi-Defiers, communicate effectively with many species on Earth and off-planet, eliminate ordinary, elected governments and political boundaries, convene a new group of Global Leaders, and deal with families and friends reactions. In what multiple timelines of the ever-expanding multiverse do Clara and her long-time love, Epifanio Dang, get to be together and which leave Clara alone and lonely as the leader of Earth? This Changes Everything spans the 30-year story of Clara's term as Earth's first Chief Communicator, continuing in nine more Volumes of The Spanners Series. Are YOU ready for the changes?
